Powdered Milk

Why we don't sell powdered milk with 26% fat?

Because dry fat can go rancid and you can smell it in ice. The powdered milk with 0% fat does not bring this defect and ours is a French milk from ISIGNY classified AOC.

CODE	DESIGNATION	DOSAGE	PRICE €	Kg/€
SLAIT	25 Kg MILK powder 0% fat 20g/Kg Isigny	20g/Kg	189,00	7,56

Sugars

Why do we sell dextrose and glucose powder ?

Because they provide less sweet dry extracts and better hold of your ice creams. Glucose brings shine and ours does not harden with humidity

Each row of cones is in a welded envelope and is placed in its housing on the tray.

The edges of the cone are interior folding of the thin break when loading them

The cones are very carefully packed to avoid breakage

In the box, there are several trays on which each stack of cones is wrapped in a sealed plastic bag. The cones are thus protected from humidity and remain crisp for a very long time after manufacture..

Shipments are made on filmed pallets

On delivery make sure that the pallet is filmed with our guarantee tape. If you receive separate boxes outside of their shipping pallet, write on the carrier slip : "Received separate boxes".

This is how the pallet should reach you !

Show this photo to your staff to make it clear the importance of refusing any delivery that does not carry our guarantee band.

Insulated boxes : Stackable and ball-shaped

* Limited Stock : 10% discount

Impilo : with stackable compartment(s)

With one or more compartment (s), Impilo can separate two flavors or even ice cream from other frozen desserts.

Available in several colors: white, blueberry, hazelnut or green pistachio.

Pasqualina : at the ball

Pasqualina separates fragrances, emphasizes their individuality and creates a refined and colorful moment of sharing. It is therefore also suitable for the requirements of consumers with food intolerances. Practical and intelligent, Pasqualina is available in two sizes: 6 or 12 different compartments, allowing you to separate your ice cream and avoid the mixing of flavors...

Who are we ?

Located in St Laurent du Var in the Alpes Maritimes, not far from the Italian border, the company Nikaia Ice Cream was founded in 1981 to help and serve artisan ice cream parlors. The competence of its founder in terms of manufacture and knowledge of the market can be explained by the experience obtained through its two ice cream parlors located in Nice and Paris.

The company also has an ice cream maker franchise (**Le Glacier Moderne**) which caters to ice cream neophytes and already more than 20 shops around the world take advantage of its services. Nikaia Ice Cream participates in international ice cream fairs and we are always looking for products that meet the needs of the market.

400 M² in the St Laurent Industrial Zone can accommodate international transport trucks and load containers for export (60% of sales).

To avoid any breakage, fragile goods are secured on a wrapped pallet.

Any order for France placed before noon is shipped during the day.

Shipments with instant tracking.

Transport times are 1 to 3 working days (3 to 4 days for Corsica).

The port in France is free for orders above 500 € HT below this amount applies a transportation package of 40 €.

Express deliveries possible (less than 24 hours) even on Saturdays.

Discount possible depending on the quantity ordered.
